Line 1 Map

This and other maps of the Seoul Subway system can be found at http://www.smrt.co.kr/english_smrt/cyberstation_smrt/cyberstation.jsp.

Starting from circled "1" at lower right, Cheonan station is first, then Songtan is sixth named station after that. (Stations without names are still under construction.) Byeongjeom is the second named station after Songtan, and Guro is the station before line turns toward the top of the page. At Yongsan, the Cheonan segment of Line 1 goes towards Namyang and then terminates at Cheongnyangni (station above KNR symbol).
